

## **Visit to the reading room**

You can view pre-ordered media in the reading room of the ABI library if you have been vaccinated against Corona, have recovered from it or have tested negative for Corona with a PCR test (less than 48 hours old).

You must book your visit and preorder material at least one working day ahead of your intended visit (by e-mail: [bibliothek\[at\]abi.uni-freiburg.de](mailto:bibliothek[at]abi.uni-freiburg.de)). Please send us the precise shelfmarks and titles of the media you need.

Please plan your visit to the reading room to look through pre-ordered media in such a way that your time spent there is as short as possible.

During the entire visit to the library, you must wear a medical mask or respiratory protection according to FFP2, KN95, N95 or comparable standards that you have brought yourself. This must be done properly, i.e. covering the mouth and nose and fitting tightly all round. In addition, all other corona-relevant distance and hygiene rules must be observed.

When entering the Institute, please sign the visitors' list on display. You will then fill out a more detailed data sheet in the reading room.
